OWL ADOPTION SCHEME 2020

The Wolds Way Owl Trust was set up in 2013 to rescue exotic owls which had been confiscated from members of the public in order to provide them with a permanent home.

As time went by we began to rescue sick and injured indigenous owls as well, providing shelter, food, veterinary care and rehabilitation with the end goal of releasing them back into the wild.

If you decide to adopt an owl today your money may be used to assist with the cost of a visit to the vet, to contribute to our feeding costs, to rescue an owl or owlet in an emergency or even be put towards the cost of a new aviary!
